Commercial Units & Offices Security

DIAPLOUS can provide customized security solutions for safeguarding Corporations' Offices and Commercial Units from security breaches.

It is widely known that access control systems have a significant impact in preventing unauthorized access to working spaces (offices, commercial units, etc.). However, a detailed documented security review is crucial to be conducted for identifying security threats & vulnerabilities.

DIAPLOUS has the expertise to:

- Conduct detailed security reviews
- Propose specific security options
- Provide tailor made security services

Industrial Facilities Security Services

DIAPLOUS can provide tailor made security solutions for industrial facilities such as Oil Refineries, Logistics Distribution Centers, Construction sites, Healthcare units and Warehouses.

One of our recent projects was the identification, evaluation, and mitigation of identified threats for a major Petroleum Refinery Facility in Europe.

Our security consultants are experienced in providing the following security services:

◊ Identification of Industrial Unit's assets.
◊ Identification of threats.
◊ Identification of vulnerabilities.
◊ Production of Qualitative and Quantitative Risk Matrixes.

For conducting security services, we consider many security-oriented factors such as:

◊ Geographical location
◊ Facility's area
◊ Established security policies
◊ Security protocols
◊ Security procedures
◊ Security culture
◊ Security infrastructure
◊ Manpower
◊ Labor shifts, etc.

The risk matrix compiled is always Client-oriented.

Security Consultancy Services

DIAPLOUS Security Risk Consultants can collaborate efficiently and effectively with all types of Clients either Individuals (C-Level Executives, HNWIs/UHNWIs, VIPs) or Corporations (National, Multi-national & International) in any Industry Sector (Primary, Secondary and Tertiary).

We offer tailored services to help you manage uncertainty, leveraging privileged sources and proprietary methodologies for delivering original content exactly when you need it.

Through our understanding of local dynamics, we can evidence a proportionate response to challenges and exploit opportunities. Our Security Consultancy Services, are summarised here below:

- Corporate Risk Management
- Risk Assessment
- Vulnerability Assessment
- Cyber Security Assessment
- Business Continuity
- Crisis Management
- Capability building

It shall be denoted that Security Reviews and Security Audits are crucial in Security Risk Management.

Security reviews facilitate in identifying security related vulnerabilities and in determining the respective risk level associated with the identified security issues.

Security Audits assess the adequacy and effectiveness of an existing security control framework (Policies & Procedures) and expose security gaps whilst providing security recommendations.

DIAPLOUS offers its Clients two key advantages in this area:

⇒ We use proven risk mitigation methodologies

⇒ Our security consultants provide tailor-made analysis according to the respective security context

Both Security Reviews and Security Audits should be supported by a Security Risk Assessment for identifying, analyze and evaluate security risks.

Indicatively, we have recently accomplished the following mentioned security reviews and security audits:

◊ Security Review of both Commercial and Private Security infrastructure for a multi-

◊ national business in Europe.

◊ Security Review of an UHNWI's Executive protection service and respective technical security's infrastructure.

Residences and Residential Compounds Security / Estate Protection

DIAPLOUS can provide fully customized security solutions for safeguarding individuals and their residences from several security breaches, such as home invasion and privacy Invasion.

Although a residential protection can be achieved either through a sophisticated alarm system connected with DIAPLOUS operation center or with the assignment of an unarmed guard on a 24/7/365 basis, a combination should always be the first choice subject to the findings of a detailed security review.

We can provide detailed Security reviews for residential units and propose specific security related infrastructure for installation, as well as policies and procedures implementation according to our findings and your requirements.

The proposed security related infrastructure might include specific equipment, wired / wireless / satellite connection with our operation center, access control systems and CCTV equipment. Additionally, our proposed security policies and procedures shall include recruitment protocols to be established for residential staff such as housekeepers, chefs, personal drivers, etc. as well as emergency procedures to be followed by the Principal and his / her staff in case of a security breach.

Security Services for Hotels & Resorts

DIAPLOUS provides security services for Hotels and Resorts of any size.

For providing tailor-made security services we can initially provide a security review and according to our findings we can prepare a detailed report addressing the security issues which will need special attention.

A specific security plan will be designed according to your security policies, protocols, and procedures for maximizing the security of your guests and staff.

Indicatively, we can provide the following security services:

- Guests and Employees access control
- Suppliers / Vendors access control
- Provision of Static and Patrol Security
