

Acronis global data centers

Lagos, Nigeria

Acronis Cloud data centers are designed to meet and exceed corporate and regulatory requirements. With multiple data centers worldwide – including Lagos, Nigeria – Acronis enables you to meet compliance, data sovereignty, and performance requirements.

YOUR DATA SECURITY IS OUR TOP PRIORITY

Our global data centers employ the highest standards of physical security to restrict unauthorized physical access and protect the safety of customer data. Standards and reports for the Nigeria data center include:

- ISO 9001:2015
- ISO 22301:2012
- ISO/IEC 27001:2013
- Tier III Certification of Constructed Facility for the Rack Centre Limited – Lagos Data Centre

HIGH AVAILABILITY AND REDUNDANT INFRASTRUCTURE

Acronis Cloud data centers follow the approach of need plus one (N+1) for greater redundancy across all hardware layers of its infrastructure, minimizing risks and eliminating single points of failure.

REAL-TIME ENCRYPTION

Acronis helps you maintain regulatory compliance by protecting data with AES-256 encryption in transit and at rest.

SECURITY PROFESSIONALS ON STANDBY

The Acronis team is on standby 24/7/365 to address any security issues – giving you peace of mind and ensuring that both your data – and your customers' – is safe and secure.

SERVICES AVAILABLE

Cyber protection, File sync and share, Notary, Microsoft 365 backup, Google Workspace backup, third-party RMM/PSA integrations and Cyber Infrastructure SPLA.
